RESPONSE AND AMENDMENT

Dear Mr. Elkins;

The applicant sincerely thanks the Examiner for his efforts in this matter, including the search and telephone conference with counsel on the date of December 22nd, 2004. For the record, counsel was extremely impressed by the Examiner's careful reasoning and grateful for the time and attention devoted by the Examiner to the discussion.

To informally recapitulate the telephone conference the Examiner and counsel discussed modest revisions necessary to render claim 1 allowable. Applicant's arguments regarding Claims 19 and 20 were not at that time persuasive to the Examiner.

Claim 1 therefore contains only such changes as were discussed during the telephone conference. Claim 19 has been substantially modified again after the telephone conference and no longer rely upon the points of novelty not persuasive to the Examiner at the time of the telephone conference. Claim 20 has been withdrawn.

Please amend the above referenced patent application as follows.
